

Georgi Todorov

Senior Front-end Developer

+359 89 4746735
g.todorov92@gmail.com
Sofia, Bulgaria

PROFILE

Front-end developer with nearly a decade of professional experience building modern web applications. Experienced across the React, Angular, and Vue ecosystems, with a strong focus on performance, accessibility, and maintainable code. I care about translating thoughtful design into fast, intuitive user experiences and enjoy collaborating with cross-functional teams to deliver reliable, high-quality products.

EXPERIENCE

~6 years • hybrid location

Jun 2020 → Mar 2026

Senior Front-end Developer @ LAB08

Worked with Angular, React, and Vue across multiple successful projects – both greenfield and existing codebases. Built and documented UI components with Storybook, monitored production quality with Sentry, and collaborated effectively within front-end teams as well as delivering features independently.

3 years

Jul 2017 → Jun 2020

Front-end Developer @ HAEMIMONT

Worked with modern stack like React and Angular as well as legacy libraries like jQuery. Involved in the full development cycle – from design through implementation to manual and automated testing.

EDUCATION

RWTH Aachen University, Germany

2011 → 2017

Informatics

Baba Tonka High School of Mathematics, Ruse

2006 → 2011

TECHNICAL SKILLS

HTML • CSS • JavaScript (ES6+)
React • Next.js • Vue • Nuxt
